Perimeter

Homework:

Homework is in the Friday folder along with other papers to fill out. Please return all papers by the last day of the month!

This week: We spent this whole week getting to know each other and our school rules.

Character Development: We read the book How Full is Your Bucket and spent the week talking about what fills our bucket and what we can do/say to fill others buckets. Please look for this book on YouTube so you can learn our “Lighthouse Language”.

Language Arts: We reviewed the alphabet through songs.

Math: We played with puzzles, pattern blocks and sorted our colored bears.

Next week: We will spend Monday celebrating the solar eclipse. We will remain indoors during the eclipse but will stream it online. We will use flashlights to mimic an eclipse as well as other “eclipse” activities. If your child can bring a flashlight to school on Monday, that would be fun!

The remainder of the week will be spent getting to know our school (Including walking over to the Trinity site) We will read several versions of the book The Gingerbread Man and, as a class, make our own gingerbread man! He will magically run away and the kids will spend the week visiting all the important areas of our school (the office, the Principal, our Trinity friends, art, music rooms etc...) as they try to find him! Shhhh don't tell the kids, it will be a surprise! We will also begin our “bootcamp” letter/sound recognition. We will teach a letter and sound per day using ZooPhonics. If you are not familiar with ZooPhonics, please review it on youtube with your child.
